

DUKE DRIVING SCHOOL, LLC

Letter of Recommendation

May 20, 2015

Dear new driver parent(s),

I met Duke with my first teen driver last year. My daughter took his class with her cousin. He was AMAZING with them both. They tend to be shy and not talk in front of people, but Duke brought the shyness right out of them. I was no longer worried about my daughter on road when it came time for testing.

This year was my second, and last driver, my son. Duke has taken very good care of him as well. I thought being the baby of the 2, my son might struggle a bit with the driving instruction, but with Duke and his gentle nature, my son has excelled and gotten so much more comfortable behind the wheel. Thanks Duke!

I recommend him to everyone because he takes the time to get to know the students and actually TEACH them life skills. The driving sessions are individual and he works on their weaknesses. He cares about each and every one of his students. I wouldn't have had my children take their driving instruction from any other place!

Sincerely,
Renee Taylor
